Detailed display from Answer set 6 of Preparation of 3-aminocaprolactam derivatives as anti-inflammatory agents

Preparation of 3-aminocaprolactam derivatives as anti-inflammatory agents

By: Grainger, David John; Fox, David John

Assignee: Cambridge University Technical Services Limited, UK

Title compds. I [X = acyl, sulfonyl, etc.] are prepd. For instance, (S)-3-((hexadecanoyl)amino)caprolactam is prepd. from (S)-3-aminocaprolactam.bul.HCl and hexadecanoyl chloride (CH₂Cl₂, Na₂CO₃) in 77% yield. In an assay of MCP-1 induced leukocyte migration, II and other selected example compds. have ED₅₀ < 100 nM. I are useful for the treatment of inflammatory disorders.
